Friends Service Called Conveyor Of Red Ideology

Associated Press

A pamphlet published by the Senate Internal Security subcommittee describes the American Friends Service Committee as a "well-known transmission belt for the Communist apparatus."

The pamphlet calls propaganda the principal weapon of Communist political warfare.

It is in connection with pacifist groups that the pamphlet, made public Monday by the subcommittee, mentions the American Friends Service Committee.

The pamphlet says the pacifist movement undoubtedly attracts many honest peace lovers but many groups are manipulated directly or indirectly by the Communist apparatus.

In Swarthmore, Pa., Colin W. Bell, executive secretary of the American Friends Service Committee, said: "We cannot make any sense out of the quotations as given in the article. . . . We will decide on the action to take when we have read exactly what has been written in the report."
